Please attend the Annual Chapter Meeting June 14

Our 2008 State Chapter Annual Meeting will again be held at The American Mountaineering Center in Golden starting at 1:00 PM, Saturday, June 14th. Any and all chapter members are also invited to attend the meeting of the chapter Executive Committee at the same location at 10:00 AM. Have lunch with us after.

Is Hydrogen our future? Hydrogen is the most abundant element and could well be the energy of the future. Rob Remick, Director of the Hydrogen Technologies and Systems Center at the National Renewable Energy Lab will present an update on what research is being done on hydrogen as a primary energy source.

Chapter Actions

Feb. Wrote Senator Allard urging him to support the Hardrock Mining and Reclamation Act, which would reform the 1872 Mining Law.

Wrote Congresswoman Musgrave thanking her for her support of the Rocky Mountain National Park Wilderness Act and for her opposition to condemnation of private land for expansion of the Army's Piñon Canyon training site.

Presented State Representative Rob Witwer a Chapter Green Elephant Award. Rep. Witwer, Golden, was selected for his work on water quality, efficient energy use and renewable energy. ExCom member Paul Steinhauer took this photo (Rep Witwer on the right, I'm the other guy.):

Mar. Co-sponsored Conservation Reception for the State Legislature.

Apr. I was in a group that met with Congressman Lamborn about the proposed Browns Canyon Wilderness.

May. Our chapter had a table at the State Republican Convention in Broomfield May 31st.
